John E. Meeker -Executive Director

July 21st, 2009

Dear Independent Contractor,

As you know all too well, the entire SLS-CES waiver changes were implemented on July 1, 2009.

We would like to take a moment and provide a few updates:

1. The requirement for you to obtain a provider identification number is on a temporary hold. DDD has assured they will provide us ample notification of when it will be required and we will then pass this information on to you.
2. If you have already obtained a provider number and web portal access, you can not bill Medicaid directly at this time. DDD is working on this and we will update you as receive information.
3. Please continue to bill Developmental Pathways as you always have for services in either the CES or SLS programs. Developmental Pathways will not charge a fee for this service at this time.
4. We are excited to share with you new forms for both the CES and SLS programs. All of the forms have the same look as the old forms as well as the same useful functionality. What is nice about the new forms is that standardized rates are already in the document and rates based on tiers are available via a drop down menu for those variable rate services. As in the past, there are SLS and CES specific forms, please remember to use the correct form for the correct program you are billing.
5. Developmental Pathways will not be amending service plans (SP) to reflect the new codes or service categories. Rather, you will be expected to provide the service outlined in the current SP and bill accordingly. Please refer to the appropriate SLS or CES Cover Sheet Guides to assist in the process.

These forms are also posted on our website [www.developmentalpathways.org](http://www.developmentalpathways.org) under *Featured Links* then *Vendor Resources* and then *Supported Living Services Vendors*. As always, please continue to visit our website frequently as we are continually posting information under our Current News section.
